Features & Benefits

Heritage Truck Equipment offers custom manufactured aluminum dump bodies to meet the exact hauling needs of your dump truck operation. Heritage bodies are custom built using solid welded construction and only the highest quality 5083, 5454, and 6061-T6 aluminum alloys. Heritage aluminum bodies are perfect for many applications including processed material hauling, sand, gravel, asphalt, and coal hauling. Manufactured with pride by experienced welders so you can be assured your Heritage aluminum dump body will withstand many years of hauling.
