

## HERITAGE ROLL OFF

(CABLE HOIST)

Introducing the Heritage Roll Off. Our new line of roll-off hoists are completely designed, manufactured, and installed at our state-of-the-art facility in Hartville, OH. Available in both 60,000 lbs. and 75,000 lbs. capacity, our roll-off cable hoists are ready for any of your hauling needs including scrap metal, waste, or bulk materials. While Heritage may be new to the roll-off business, those that have experienced the quality of a Heritage manufactured dump body along with our reliable on-time delivery schedule, will find Heritage to be their best source for a roll-off hoist as well. Give our sales team a call today to find out how we can help you! For more photos and information, check out [www.heritagetruck.com](http://www.heritagetruck.com)
