## STEEL DUMP TRUCKS

### INCREASED VERSATILITY

Heritage Truck Equipment offers custom manufactured steel dump bodies to meet the exact hauling needs of your dump truck operation. Steel dump bodies from Heritage are built using the highest quality Hardox AR-450 steels and feature a crossmemberless floor and smooth side design making a Heritage body lighter and stronger than other bodies. When the job calls for a durable high strength dump body to handle the rugged work one day and a lightweight body to haul maximum payload the next day look no further than a steel dump body from Heritage.

### STANDARD BODY SPECIFICATIONS

- Build to any length from 9 ft up to 24 ft
- Smooth side crossmemberless body design
- Material thickness from 4 mm to 3/8" available
- Formed top rail using Hardox AR-450
- Solid welded construction inside and outside
- Trunnion mount or pin-to-pin telescopic hoists
- Air tailgate

## DEDICATED TO MEETING YOUR EXACT HAULING NEEDS

Heritage Truck Equipment was formed in 2000 with the goal of providing the highest quality truck bodies. Our manufacturing plant utilizes the latest in production and manufacturing equipment for steel and aluminum cutting and forming as well as our in-house engineering staff allowing Heritage to deliver a customized product at an affordable price. Our roots in the construction and excavating industries allow Heritage to better understand the demands of a dump truck operator and Heritage is focused on delivering a better dump truck body for our customers.
