STEEL DUMP TRUCKS

INCREASED VERSATILITY

Heritage Truck Equipment offers custom manufactured steel dump bodies to meet the exact hauling needs of your dump truck operation. Steel dump bodies from Heritage are built using the highest quality Hardox AR-450 steels and feature a crossmemberless floor and smooth side design making a Heritage body lighter and stronger than other bodies. When the job calls for a durable high strength dump body to handle the rugged work one day and a lightweight body to haul maximum payload the next day look no further than a steel dump body from Heritage.

STANDARD BODY SPECIFICATIONS

- Build to any length from 9 ft up to 24 ft
- Smooth side crossmemberless body design
